**Comments**:  
Temperature was 62°F at 1:15 pm in the main Kennel area.  
There were no visible signs of illness or injury noted in the dogs or cats today.  
Advised the director that there are areas in the Kennel room on the walls that the paint is peeling and there is some mildew on the ceiling in some areas. These are issues that should be looked into before they progress into a very large project.  
The shelter has recently created an outdoor exercise area.
