**Comments:**
Although the wire bottoms of the cages have been re-coated, there are small areas that the rubber is peeling already on the bottom of the rack. Owner needs to pay attention and keep these re-coated before they're in bad condition again.

2 black and white puppies were in cages that were too small. Owner moved them during the inspection. The space formula has been explained to the owner.

**Item To Address:**

1. Outdoor Fencing - Fence and gate at pet shop door need attention - Replace gate or rusted peeks in gate, and replace post gate is attached to.

2. Take down the 4' pen by the back door - not high enough and needs repair.

**Follow-up on item 2) in 30 days.**
