Item Number | Explanation of Inadequacy (circled items above) And Recommendation For Compliance | Date Corrections Must Be Completed
---|---|---

Item 2 Address:
1) K-9 Quarantine - Pan with light pole. Wood pole may be wrapped in a material that is impervious to moisture. Discuss using a pvc pipe. Be sure to seal the bottom around the pole.

Comments:
The drain areas of the outdoor kennels have now had all the grass removed and concrete drainage installed. This appears to be working well. All areas behind the kennels are clean.
The pens and fencing is in good repair.
Continue to keep all areas in the concrete sealed.
Plastic dog houses - discussed either replacing chewed houses or smoothing the rough surfaces so that cleaning may be complete.
The food and bedding storage areas have been organized and are very clean.
A new cat adoption room has been created that will contain no more than 12 cats. This room allows cats to have an exercise area.
Temperatures were in range in all indoor areas (50° - 85°).
There were no signs of unreported illness noted today.
Records are in compliance.
Shelter owners should be aware that are some coming ceiling repairs that will need to be addressed, i.e. the new cat room and indoor K-9 room.

Follow-up on 7) in 30 days.
