--- | --- | ---
Follow-up from 11/01/10

**Items Addressed:**

1. Isolation room lighting - Owner has increased the lighting in this room and it was deemed adequate today.

2. All puppies & kittens had water today.

3. The **smoothcoated** puppy (Dachshund Bitch 6-9-10) was vaccinated for Rabies on 11/01/10.

4. All puppies & kittens with questionable health issues were seen by a vet on 11/03/10 as requested.
   - The Havanese puppy was diagnosed with an old leg injury.
   - The sick kitten was diagnosed with an upper respiratory infection and prescribed antibiotics.

Owner needs to monitor the ages of the puppies and kittens and when they reach 4 months of age have them vaccinated for Rabies.

The health of all the puppies and kittens needs to be monitored closer so that any animal that is displaying signs of illness is not offered for sale, and is given proper veterinary care.
