| Follow-up from 9/28/09 | 1) Resting platforms are present for each dog today. Discussed the special cases that a dog may chew and eat the material. These cases need a note placed on the kennel door stating it is a hazard to their health and they will be exempted from this regulation.  
2) Today, there were no dogs or cats with noticeable illness or injury untreated.  
3) Today, there was no evidence showing wet dogs from Kenneling being hosed or sprayed while occupied.  
4) Records - all enclosures had identification. |

Remember to provide litter pans for all cats and to keep any open bags of dry feed in a closed container.  
Cleaning was on going during this inspection.  
Director has placed thermometers in all but 2 dog & cat holding rooms.  
Temperatures were 68° - 70°. The additional 2 thermometers will be purchased and placed in the last 2 rooms.
