Comments on the findings of each of the above:
1. - There is old feces, hair and some trash behind the outside kennels. This was marked inadequate on the 11/1/09 report.
2. - A concrete trough has been installed where there was space between the back line and front wall of the kennels. The shelter had until 1/14/10 to address this area.
3. - Feces on dog toys - there was no unusual amount of feces on any dog toys today. Dog toys are routinely cleaned and sanitized and when being used by a dog, would not be uncommon to find some hair or debris on the toy if it was in the dog's kennel.
4. - All dogs were observed today, and there were none found matted with feces.
5. - Routine cleaning of this shelter includes scooping feces and then hosing or wiping out cages today due to the frozen outdoor pipes, hosing had not been done. Hosing also is not done when kennel is occupied.
6. - There were no wet, cold dogs observed today.
7. - There was unwashed dog laundry found today. The Manager stated they only have 1 washer and dryer and with the cold weather they get behind with the dog laundry plus they had to replace the washer recently. They were beating for all the dogs today.
8. - Manager stated the washer refund to was not pregnant and the shelter does

<td>In reference to this complaint, the shelter was already working on the mentioned sanitation issue behind the kennels. They have until 2/14/10 to have this corrected. The shelter has already removed a large gravel area and replaced it with cement. The area between K-9 quarantine and the front pens and the area behind the outdoor kennels are still to be addressed and they were given until 2/14/10 on their 11/4/09 inspection to have this work completed.</td>
