**PAGE 1 OF 2**
Follow-up from 11-13-08

Item that have been addressed:

1. All damaged Kennel walls have been repaired/replaced. The problem areas were at the guillotine doors. The dogs had easy access to the wall at the guillotine door. Now stainless steel has been installed on the walls and around the borders of the guillotine doors. The top piece could not be fastened in such manner so there is no flex. Staff should pay attention that no dog can catch a toe nail or teeth behind that piece. There is only slight flex but this should be ignored if there is a problem.

2. Black mold stained ceiling tiles have been replaced. Shelter has plans to replace all water stained tiles even though they are not showing mold.

Comments:

All indoor facilities need Thermometers in all animal holding areas so ambient temperature (50-85°) may be monitored. They should be positioned at dog level.

Remember to store all food/hydrants in closed/covered containers.

Remember to use staining boards.

Transportation standards, cleaning, etc. have been discussed.

☑ APPROVED  ❑ CONDITIONALLY APPROVED  ❑ DISAPPROVED  Date: 1-22-09  Time: 2:40pm
