<tr>
<td></td>
<td>Follow-up from 5-27-08. Cross contamination has been addressed by the installation of block walls. In other areas the sanitation protocol satisfies the cross contamination issue - dogs are removed from run while cleaning is completed. The new chain link fencing looks good although gate #2 in the quarantine runs needs attention on the left bottom side. Remember that any damaged wood needs to be replaced with a non-wood product. Cleaning is ongoing at time of inspection.</td>
