In reference to the complaint about sick puppies and parvo. There is no sign of any illness in any of the dogs today. One puppy is being held in the main kennel for the past 7 weeks and has never shown any signs of parvo. Today the kennel and cat cages are clean, no odors, all appear healthy.

Inadequacies still not addressed:

1) 7) Cross contamination barriers need to be installed. Resting surfaces need to be available for every run.

2) 9) The issue of temperature and ventilation needs to addressed. Temperature today at 2:00 pm is 90° in kennel area.

Chris Sumner, AC manager, has met with the Duplin Co. manager and County Commissioners and they are aware of corrections that must be addressed. Chris has not be able to get them to commit to either build a new facility or repairing this one. A follow-up inspection will be done in 30 days to learn a time frame to address the above issues.

Remember also, the pipes in the Kennel are beginning to need attention.

Also discussed the drop box - let it be understood NCDA does not recommend using a drop box due to corning issues.
