Inadequacies that have been addressed since 9-11-07:
- Resting surfaces are now available in all runs - Good.

Inadequacies that have not been addressed at all:
- 1-7) Cross contamination barriers are needed in main kennel. Kennel Piper needs attention.
- 2-9) Temperature and ventilation issues have not been addressed. Main kennel area today is 68°F at 12:00 - Good. But Cat area does not have any heat - cages are out of rain and sun but subject to extreme heat and cold temperatures. Quarantine dog area is fully enclosed but has no access to heat in winter or cool in summer. Quarantine is also the isolation area.

Comments: The drop box is no longer used. No apparent sickness noted in dogs or cats today.

The above issues either must be addressed or a time frame set to when they will be addressed within the next 30 days 12-30-07.
