</tr>
</tbody>
</table>

**Items Addressed:**

1. Resting platforms were available for all dogs today.
2. There were no dirty litter pads waiting to be cleaned today.
3. Cat room had been cleaned early today.
4. K-9 areas approved to have been cleaned earlier today.
5. Records: Birth/death records were available today and acceptable.

**Items To Be Addressed:**

1. 4) Concrete floors with peeling paint need to be re-pointed. Floors need to be sealed to aid in food sanitation.
2) Run #4, 6, 11, 12, 13 - The caulking/sealant at the base of the door contamination barrier is either completely gone or lost or partially gone. All areas must be kept sealed.
3) All damaged kerfing beds must be replaced. (Noted 1 bed run #3)
4) Chain link repairs are needed on #10 - gate, #8 and Porch K9, #4 gate wire, #6 gate - bent and cut off shape & wire at bottom of gate.
5) K-9 qt. room still does not have a thermometer - Temperature felt comfortable but no way to measure temperature.

--- | --- | ---
14) | Outdoor holding pen - SALLY PORT ARENA - Pen has dry feces on the concrete and old, dry feces around the outside of the pen. More attention to cleaning is needed in this area. | 
15) | Chewed/ damaged plastic water/food receptacles still have not been replaced. Cannot properly sanitize damaged plastic receptacles - replace all damaged receptacles. | 
17) | Cob webs are still found in K-9 Kennel areas (both), more attention to cleaning is needed and better insect control. | 
19) | Adequate feed - Multiple dogs were still housed together with only one food pan (this excludes litters of young puppies). One pan per adult dog is required. | 
Cat Kennel - 1:10 pm - There were 18 occupied cat cages. 7 cages contained cats that exhibited signs of being very hungry - crying and reaching out of the cages. 3 cages had water but no food. ACO stated they were fed very early this AM (before 7:00 AM). The ACO fed them and they appeared content. All puppies and kittens are required to be fed twice daily. Cat cages appear to have been cleaned once today. | 
20) | Personnel - Again, evidence is seen to indicate a lack of personnel to adequately take care of all the duties of this facility. This inspection was conducted at a time late enough for all the duties to be completed. Shelter was closed on 8/7/10 although the was no attendant and 9:00 AM ACO was attending to all the shelter duties. He was gone on the road at 3:00 when the shelter closed. ACO stated that he came in at 4:00 AM in order to have everything attended to before going on the road. Shelter attendant was out of work today. |

| 23) | Refer to 19) - ACO fed cats during inspection. A sick blood was observed - bloody diarrhea + vomiting. ACO stated that it had just started showing these symptoms this afternoon. Blood looks bad at the end of the inspection - ACO saw it in day 1.

Records - Need to identify the cat cages and have cat records available in the cat room. All K9 Kennels need identifying numbers refreshed. Need to read. Each drug log was inspected today. Recommend ACO refer to HS manual and start keeping a more detailed drug log. Dr. Martin Angell, provides drugs for shelter. Discussed with ACO the need to number each bottle and make sure all drugs used are accounted for in drug log. Also need to log animal ID #.

24) | Due to computer system the disposition records are incomplete - full account information must be logged. |

Comments:

- A euthanasia inspection was not conducted today. There were no animals to euthanize today. The manual was not on site which is not acceptable. Worker A-C understands this.
- Temperature was in range in all areas today.

Re-inspect in 14 days (calendar)

- **Disapproved**
