Comments:

The last run on the right has been used to house one dog that management deemed adoptable, but because of the particular breed or any other particular trait the dog had, management chose to label that run as "Quarantine," so the public would know not to try to handle that dog. Management was advised today to remove the quarantine sign and only house dogs in the main population that are adoptable. Discussed using more signs to caution the public about the dangers of handling the dogs.

Temperatures were in range (50°-85°) in all areas today.

There were no visible signs of illness or injury noted today.

Reminded all not to hose occupied runs.

Discussed materials to use as grass contamination barriers as management advised that there was no more material to use when the existing barriers become damaged.

Item 7) Should be addressed before next inspection.

Approved [X] Conditionally Approved ☐ Disapproved ☐
