	<u>On 6/12/06 I performed a courtesy inspection. At that time issued addressed were the following: Resting pads for the dog kennels were wooden. They have been replaced with vinyl resting pads. The kennel lighting needed work. That has been fixed. Some cages needed repair. The cages have been repaired. The water drainage is ok, but was a little wet outside the kennel area. Temp in kennel area was 62°. Need to purchase food bowls. Utilizing plastic in dog kennels. (going to replace within 30 days) This shelter is small, but overall in good shape. All cages are located inside no outside runs.</u>	
	<u>I discussed that drugs utilized for euthanasia need to be under a 2 lock system. Under 1 lock now, but going to purchase a small safe.</u>
