☐ 29. No Signs of Illness/Treated

Item Number Explanation of Inadequacy (circled items above) And Recommendation For Compliance Date Corrections Must Be Completed

I performed a courtesy inspection today. Several items were circled. The drainage was indeed in need of repair behind the shelter that has been corrected. There was waste backing up. I mentioned about hot water to clean kennels. The shelter has installed a hot water heater. I also observed cracks in the flooring. The floors have been painted and sealed. (Note: good). I mentioned about pens around the building. Noticed none today. The shelter is much better shape then when I inspected in June. Very impressed with the facility need to continue. There are resting pads in the kennels. Stainless steel food and water bowls. Need to fix cage so animal don’t have contact with animals in another pen. (Note: to Nose)
