On 6/7/06 I performed a courtesy inspection at that time. The issues
I addressed were:

- Addressed was the need for more Kennel space. The temperature inside the kennel
  area was 60°. There is no heat inside the kennel. This needs to be addressed.
- No plastic food bowls need replacing. There is wood on the outside between
  the cages that needs to be sealed and removed. This is a small shelter
  but not in bad shape for age. The biggest issue needing addressed
  is heat in the Kennel area. Tubs and blankets are utilized for the dogs to
  lay on. The shelter will need painting within the next couple years.

I need a time frame on the above issues.
