I performed a follow-up inspection today.

On the inspection conducted on 1/5/11 there were some inadequacies that needed to be replaced or repaired.

There was no drain cover in the kennel section of the shelter. The drains have been installed.

The shelter kennel floor had numerous cracks that needed sealing.

The cracks have been sealed.

The inadequacies that still need to be either replaced or repaired are the resting surfaces in the kennels.

The other inadequacy is that the gate on Pen #10 needs to be replaced or repaired.

I will return in 50 days to perform a follow-up.
