| Item Number | Explanation of Inadequacy (circled items above) And Recommendation For Compliance | Date Corrections Must Be Completed |
|--|--|------------------------------------|
| | Follow-up from 9-8-08 | |
| | Comments from past inspection: | |
| | Food is now stored off the concrete floor. New shelter is under construction. | |
| 10 day 18) | The grounds are the same - dogs are not allowed in yards. There still needs to be grounds maintenance but since facility is moving into a new facility soon, AWS is waiving the need to spend funds on this item. | |
| 9) | The temperature was 60° in the K-9 Kennel area at 2:00 pm. Some plastic has been installed in the K-9 Kennel area - covers the push-out screens - no actual window. Concerns over having a temperature of at least 50° in that area were discussed w/ shelter manager. With the recent cold temperatures it seems logical that at nite the temperature will drop below 50°. Management must check on maintaining the temperature between 50° - 85° at all times. | |
| Conditionally Approved contingent upon moving into new facility. | | |
| Re-Inspect in 90 days. | | |
