Item Number	Explanation of Inadequacy (circled items above) And Recommendation For Compliance	Date Corrections Must Be Completed
#7 #1	outside Kennel runs that were added in 09 - water drainage is an issue in all areas. There needs to be a slope added to existing concrete to take away excess water or roof added over kennel runs to eliminate standing water. If roof is installed then cleaning protocol would be disinfected, wash down and push out standing water.	
*	No Euthanasia was needed at time of inspection - 4 animals were euthanized earlier today 2-24-11. All records, drug logs from those previous euthanasias were in good order and all drugs were secure along with Policy & Procedure Manual.
