<td>Today's inspection is for the purpose of observing euthanasia performed by current CETS in the manner considered acceptable by AWA. Current CETS are: 1. Geral Godard 2. Christopher Lambert 3. Brooke Nelson 4. Frank, Binghberg 5. Craig Rogers 6. Paul Tiffinman 7. Bryant Voss. All 7 euthanasia technicians performed euthanasia by ETO injection. All CETS showed the ability to utilize ETO injection as their major route of injection only utilizing IP &amp; IM as needed. All CETS showed the ability to maneuver through circumstances that were changing &amp; the ability to perform to AWA standards. All 7 CETS were proficient in the use of tranquillizers &amp; their ability to properly use a dose appropriate drugs was also observed. CETS were able to verify death in all manners deemed appropriate by the AWA.</td>

- I viewed 30 records of extraordinary euthanasia for the year 2010. All these records were kept in an appropriate manner for any animal euthanized by a CET in the shelter that was either severely sick or injured. Also for the year 2010 there was a total of 7 field euthanasias performed by Animal Control Officers. While records are kept on these field euthanasias, I do not see a method of euthanasia & reason for field euthanasia.

- I also viewed D.E.F. required records for using sedative drugs & tranquilizers. All previous records that were recorded prior to this date were organized & kept up with according to standards. However, during my actual euthanasia inspection, C.E.T.S. failed to log their dosage & type of drug used at that time. I once reminded them & they were able to do so on the disposition record but still failed to do so on the actual drug log. These areas were deemed unacceptable. I have spoken to the director, the Shelter Manager & Assistant Manager and I feel confident this area will be addressed.
