<td>7)</td>
<td>Introduction Area - Futon - Must either remove futon or use a material that is impervious to moisture such as vinyl or leather. Outdoor Exercise Yards which include The Yellow, Orange &amp; Green yards - all have areas that need more gravel - boot dirt is showing. Apply grass / weed killer when needed. Add sufficient amount of gravel (1&quot;) Green yard Chain link fence does not go all the way to the ground - owner has patched it with chicken wire &amp; vinyl lattice fencing. Advised owner of a Strong wire panel called bar panel, that would be strong, and she could attach it to existing chain link. Either way, owner must replace the chicken wire and use a safer material in this area. Dog beds that are damaged need to be replaced. Chewed Plastic water buckets need to be replaced. Boarding Room - electrical wire is hanging inside a dog kennel. This must be removed immediately. There should not be any electrical cords within a dog's reach.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Comments:
Temperature was 70° in the inside dog exercise room. Advised owner to get a thermometer for the boarding room - 50°- 85°. Records were reviewed & no problems found.
All fencing refers to internal fence. Electrical box has been corrected during inspection.
Re-Inspect in 30 working days
