PAGE 1 OF 2
I performed a follow-up inspection on today's date. On the last inspection on 10/18/08, I addressed a couple of issues.

#2 #9. One of the issues was the County needed to address regulating the temperature within the shelter. The county is in the process of having heaters installed. This should be completed within the next 2 weeks.

The county has hired a new employee whose responsibility is to maintain the shelter and perform animal control.

The County Animal control officer will contact me once the units are installed.

The temperature inside the shelter this morning was 52°.

I am giving the shelter conditionally approval on today's inspection.
