**Comments:**

There were 17 puppies available for sale today. There were resting surfaces available for all the puppies. There was no sign of illness noted in these 17 puppies. Then was one Chi, pup housed in isolation. This pup was 9 weeks old. Records showed this pup was born on 11/11/10. Due to its tiny size, the teeth were examined and concluded this to be an accurate age. Store owner stated they have a policy that states when a puppy is purchased for re-sale, the seller must sign a statement that verifies the age is correct. Store owner also stated when a puppy is sold that the new owner is advised on what and how to feed the puppy. Records indicated this puppy was up to date on its vaccines and worming.

There were no cats for sale today.

Records were reviewed and found compliant.

Reminded owner of space requirements on large breed puppies.
