| 7) Primary Enclosures - Structure & Repair - 2 outdoor pens - Floor of pens must be changed from dirt/pin straw to either sealed concrete or 6 inches of gravel. Drainage around pens must be erected to adequately eliminate water and maintain sanitary conditions. Discussed concrete drain for pipe or border of gravel for drainage. A top needs to be fashioned so as to prevent escape. A house per dog is required. Recommend moving these pens away from the boarding "Kennel runs."

Outdoor Exercise Areas - Owner no longer has good grass in these areas. Discussed the options of either using sealed concrete, 6 inches of gravel or not using these yards until they are in compliance. |

25) Records - Vet Treatment - Owner needs to require bordeter to identify all medications that are left to be administered to their dog or cat. Rabies Vaccine Records - Owner needs to pay more attention to having this information on hand.

2 Dogs were up to date but the vets office had to be contacted. |

**Comments:**  
Recommend owner install a Thermometer in the K-9 Kennel room at "dog level." Remember direct supervision is required when any dog is in the outdoor exercise yard unless a separate 5-foot perimeter fence is installed. Facility is repairing some damaged molding today in the office area. Facility is clean, no signs of illness were noted. |

**Re-Inspect in 60 calendar days (3/8/10)**
