Items Addressed:

1. Outdoor Exercise Areas - Owner has installed concrete in both of the exercise areas. The drain areas are now filled with gravel.

2. Records - Owner now requires all medication to be identified, that is to be administered at her kennel. Exsample: name and strength of medication.

3. Records - All cats and dogs present today now proof of current Rabies Vaccination.

4. A thermometer has been installed in the kennel room at "dog level".

5. 2 outdoor pens in front of the kennel. Owner stated she was no longer going to use these pens to house any dogs but plans to convert it into a chicken pen.

6. The chain link top on the outside kennels has been secured to prevent a climber from pushng the top and escaping.

7. Damaged molding in the office area has been repaired.

Comments:

Owner has been advised that hair and feces washed into the gravel will create a sanitation problem - use caution when cleaning.

Remember direct supervision is required when dogs are in the exercise areas. Owner needs to remember to keep fresh batteries in the kennel thermometer. Cleaning was on going at time of inspection. No signs of illness were noted.

Approved
