<td>I performed a courtesy inspection on today's date. The shelter overall look good; however there are some inadequacies that need to be addressed.</td>
<td></td>

<tr>
<td>14</td>
<td>Puppy Room - The wire racks inside the kennels need to be repaired or replaced. The exposed wiring can hold germs and bacteria, which can lead to disease outbreaks. The plastic trays that are broken need to be replaced. The vent in the ceiling of the puppy room needs to be cleared.</td>
<td></td>

<td>New Kennel Area - There needs to be installed barriers between the bottom of the dog kennels. The current way allows for cross-contamination between kennels. I feel this would not allow the transfer of bacteria and germs. The barrier utilized in Pen #2 on the outside pen would work OK.</td>
