Item Number	Explanation of Inadequacy (circled items above) And Recommendation For Compliance	Date Corrections Must Be Completed
	60 day follow-up inspection.	
	Comments: The damaged cement/plaster walls in the Kennels had been repaired on 12-3-07 inspection and they now have been painted and all the Kennel walls look very good.	
	Still To Be Addressed: 7) Outdoor Exercise yard - The blocks are on site to lay as a border around inside of fencing and the river rock type gravel has been donated. Shelter has inmate workers lined up to level the yard, lay the block and then have the gravel delivered and spread. This should be completed in the next 30 days if the weather stays good. The cracks in the concrete (front run area) - sealant is on hand - waiting for the weather to get warm enough to apply it.	
	Remember the Hallway Rooms And any other rooms that dogs or cats are allowed to be semi-free - must not have access to any wood such as cabinets, doors or furniture. Wire Corrals may be used.	
	Temperature is 68° in isolation area - dogs & cats look well cared for.	
	Re-Inspect in 60 days - Sooner if called.
