Cont.

Item Number	Explanation of Inadequacy (circled items above) And Recommendation For Compliance	Date Corrections Must Be Completed
	60 days follow-up inspection	
	<p>Comments: 25 New Kennels have been installed with cross contamination barriers (walls) - look very good! Resting surfaces are available in runs - good. Long term goal is to replace all existing Kennels with the new type with the cross contamination barriers over the next 3 years. The AW section would like this done sooner but is willing to work with Robeson County in attaining this goal. The AW section is requesting letter stating this is the long term goal.</p> <p>Today Kennel temperature is 70° at 10:30 AM - good. No signs of illness are noted in cats or dogs. Would prefer seeing nursing pups and other very young pups provided with more bedding than just the resting board particularly in cold weather - heat rises and floors are much colder in winter.</p> <p>Will Re-Inspect in 60 days.</p>
