<u>Comments:</u>		
	<u>Temperature in all areas was in compliance today.</u>	
	<u>Manager stated due to personnel shortage, he was unable to do the needed building and grounds maintenance.</u>	
	<u>In conducting my grounds inspection, it was noted that a large Canal runs behind the shelter. It was not flowing but contained a large amount of debris-deadfall- that appears it would pose a danger to the shelter for flooding during heavy rains. Shelter manager denied any knowledge of any flooding and no evidence was seen today.</u>	
	<u>A re-inspection will be conducted in 30 days with the expectation that these disapproved items will have been addressed.</u>
