Transportation: Food and Water

Transportation: Care

Inspection Category	Result	Inspection Category	Result
0303 Food & water during transport	Not Applicable	0304 Observation of animals	Not Applicable

Narrative Explanation, if needed

0204 Cat room wall on left side that cat cages are positioned up to must be covered in a material that is impervious to moisture such as FRP board. The partial board would be less likely to absorb odors if it were sealed/painted.

0101 The origin of many of the animals is missing (city). ACO's need to pay more attention to recording the complete address of all animals impounded.

ZIP code

Narrative Explanation, continued

0101 Descriptions of the animals - ACO's either need to be schooled on the breeds of dogs and cats or they need to pay more attention to recording what the predominate breed of the animal is.

0301 & 0302 - No vehicles were on site for inspection today.

0303 No animals are transported overnight that require feed and water.

Comments:

The shelter now has 18 new cat cages.

Temperature was 80* At 9:35am in the k-9 area of the shelter.

The old cat room is now used as cat isolation / quarantine, food pan clean-up, food and bedding storage.

In reference to the email on 5-23-11 regarding a RCAS dog that was transported to Canada that broke with Canine Distemper. RCAS shelter manager was aware of this. The description of the dog was not the same as was on the health certificate - Feist vs. Chocolate Lab. The name was the same "Henna". There was not a shelter ID on the health certificate which was issued by the South Robeson Vet Clinic.

The shelter manager stated that they had not had an active case of K-9 Distemper in 60 days. The new protocol by the veterinarian on the Program of Veterinary Care is to check the temperature on any animal that is showing any abnormal signs. Strongly recommend manager get vet. to recommend a disinfectant that will address the Distemper virus.

The shelter CET was not working today so there was no a euthanasia inspeciton conducted on this inspeciton.

Follow-up in 30 working days.
