<td>On 4-8-2010 no euthanasia was needed. Policy/Procedure manual was in place with all required items. Records from previous euthanasia had been recorded properly and drugs were secure. As noted in last inspection on 9/1/09 this is an older facility, but no measures have been taken to have an adequate euthanasia area. This should be performed in a clean area away from other animals and out of the elements. It was also noted in last inspection to enclose back covered concrete slab for euthanasia.</td>
