Item Number  Explanation of Inadequacy (circled items above) And Recommendation For Compliance  Date Corrections Must Be Completed

* Items noted in last inspection 1-4-2011 such as - odor at front; addressed with new ventilation. Areas above interior Kennel runs that were cluttered with debris addressed by using sealed containers for storage in these areas. Concrete + block in Kennel runs need to be sealed and or painted; block + concrete have been sealed + painted in about 1/2 of facility. Facility is making progress bringing everything into compliance. Continue to complete work in these areas. (Good job)

#7 continue to seal and paint block + concrete (re-inspect 30 days)

#9, #12 - Increase ventilation in main Kennel - Strong odor on 3-14-2011. An increase in cleaning protocol will help solve this problem. Speak with owners about the How To's. (re-inspect 30 days)

#25 - Tommy (owner) was not available at time of inspection and all records could not be located. (Pet to me on 3-14-2011)
