<td>Overturned</td>
<td>Suggest metal baskets that are clipped to the fence. These Seven Pitt Bulls have been housed at this shelter due to a pending court case since 6/29/07. They cannot easily be handled so the staff are forced to hose their paws to clean them, which is not an acceptable method by AWS nor are they allowed to have resting platforms because they are so bored they know and eat the plastic. These dogs have been in long termKennel confinement so long that some of them have developed lesions from lying on the concrete and developed more aggressive behaviors. Management needs to make every effort to discuss this case with the authorities and work toward removing these dogs. In revisioning records, photos were found of other Pitt Bulls that were found dead in the kennel. They were very thin - appeared malnourished.</td>

Comments:

Water bottles are being used for cats. Strongly suggest using a water bowl due to the fact some kittens are too small to reach the bottle.
