<th>Item Number</th>
<th>Explanation of Inadequacy (circled items above) And Recommendation For Compliance</th>
<th>Date Corrections Must Be Completed</th>
</tr>
</thead>
<tbody>
<tr>
<td>22. Follow up from 6-17-08 Comments from 6-17-08 inspections.</td>
<td>Cross contamination issues have not been completely addressed. 3 of 4 lines of kennels have been completed. Projected completion time should be within the next 30 days. Drainage is still an issue. There were drain odors noted and standing water in the drains. No work has been done to correct the drainage problems according to shelter manager.</td>
<td></td>
</tr>
<tr>
<td>New Inadequacies:</td>
<td></td>
<td></td>
</tr>
<tr>
<td>23. One kitten was sneezing and had runny eyes.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>24. One of two puppies died during the night. Loose stools and lethargy. Puppies were noted. Shelter suspects Parvo. Vet will be notified today.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>30. There is no Isolation area set up for cats. Shelter needs a cat isolation area. The room that is Roger’s office would be acceptable in that there is a door that opens directly from the kennel. There is hot and cold water in that area. A sink would be needed and a showerhead installed on the wall. At this time there is no where for feral cats to be housed when trapped. Owners sit outside in a trap.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>It was noted today that the re-installed chain link is causing some difficulties in that the fence cannot wash under the fencing in the back and it is higher in the front allowing small dog escape.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>It is noted that long term care dogs are not given the required exercise. Shelter needs to address this issue.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Disinfectants used at shelter - discussed what should be used to kill Parvo virus. Consult attending vet. Suggested start using foot baths. Re-inspect in 14 days.</td>
<td></td>
<td></td>
</tr>
