Follow-up from 9.4.08

Comments on 9.4.08 inspection:

1. There is now a separate cat isolation area complete with heat and AC and a sink with hot and cold water.

Comments on recent shelter improvements:

New lighting - additional - has been added to the main K-9 area.

An additional hot water heater and sink has been added at the back of the K-9 area.

Temperature in main K-9 area was 70.5°F at 9:40 AM.

The odors in the K-9 area are much better today. Staff stated they now scoop and bag feces and this has reduced the amount of water put into the septic tank. They still pump once weekly.

Court case dogs are on medication which is logged correctly. They are receiving veterinary care until either released or euthanized.

No signs of visible illness other than the medicated court case dogs.

**Approved**
