This is a follow-up inspection from 8/8/07.

Comments: The only issue that is different from the past disapproved inspection is that the kennel odors are less - the only change is the weather is cooler - ventilation and no AC are the same. Space is an issue in the dog runs - many had 4 adult dogs per run. Note that resting mats are now used in dog runs but due to overcrowding, not all dogs can have access to a resting surface.

Wood cat cage outside still has not been replaced - Told manager not to use this cage because it cannot be properly cleaned and disinfected - Replace with non-wood.

Noted again this is a very old (1950's) building that does not meet the current needs of Animal Control - Was informed today that land clearing should begin October 1, 2007 for new facility.

Director, Justin Scott, was not available today.

Will re-inspect in 30 days.
