

Biosecurity for Poultry Farm Visitors

- Do not enter any farm without permission from the owner or management.
- Whenever possible, make an appointment prior to traveling to the farm.
- Wear clean clothes and shoes on the day of the visit.
- When you arrive, park your vehicle at the end of the farm drive or on the roadside and use your cell phone to notify the owners or managers of your presence and to receive instructions for entry.
- Let farm management know if in the previous 5 days you have been on another poultry farm or if you've had contact with wild birds. Also let management know if you personally own or care for birds or poultry.
- Observe all of the farm's instructions regarding biosecurity procedures.
- Do not enter animal housing areas without express permission from farm management.
- Do not touch animals unless that is part of your tasks on the farm.
- Immediately report anything unusual to farm management, especially sick or dead birds.

Your attention to these precautions is critical to protecting avian health and our farm economy!
